PCIe FPGA Card

## Agilex™ FPGA card with PCIe Gen5 x16

BittWare's IA-720i is an Altera Agilex™ 7 I-series FPGA card designed for building SmartNICs or other accelerators requiring a powerful FPGA in a single-slot form factor. The standard-height, 3/4-length card provides a balance of I/O and memory using the Agilex chip's unique tiling architecture with two QSFP56s, DDR4 SDRAM, and PCIe Gen5 x16 for a variety of applications. The card features two M.2 slots supporting enterprise SSDs for data storage.

# Additional Services

Take advantage of BittWare's range of design, integration, and support options

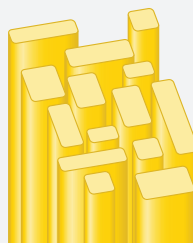

## Customization

[Additional specification options](#) or [accessory boards](#) to meet your exact needs.

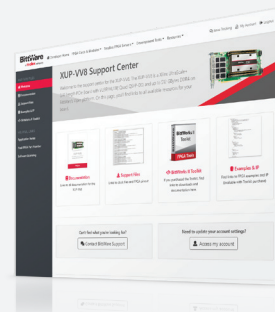

## Server Integration

Available pre-integrated in our [TeraBox servers](#) in a range of configurations.

## IP and Solutions

Our portfolio of IP and solutions reduce risk for development and deployment.

## Service and Support

BittWare Developer Site provides online documentation and issue tracking.
